MD ZAKARIA HOSSAIN

Project Document Controller | EDMS & Documentation Compliance Specialist

Riyadh, Saudi Arabia (Open to relocation) | +966 5300 26787 / +880 1517 813524 | ahnafzakariaaz@gmail.com
LinkedIn: Md Zakaria Hossain | Portfolio: https://zakariapro.vercel.app/

PROFESSIONAL SUMMARY

Document Controller with almost 4 years of experience managing engineering and construction documentation on large-scale power generation and renewable energy EPC projects across Saudi Arabia and Bangladesh, totaling 2.7 GW of combined project capacity. Strong expertise in project-specific document coding, numbering, classification, metadata validation and document registration, with hands-on EDMS/PMIS administration using Thinkproject and Samsung Knox Portal (S-PMIS), plus professional training in Aconex. Experienced in drawing control, revision management, MOM/MSRA coordination, submittal tracking and document status monitoring for multidisciplinary project teams. Background in Law (LL.B, LL.M) brings a disciplined, compliance-focused approach to contractual documentation and regulatory record-keeping. Skilled in leveraging AI-assisted workflows and productivity tools to improve document control efficiency and maintain organized project records. Full project portfolio and detailed case studies available at https://workwithzakariapro.vercel.app/.

CORE COMPETENCIES

Document Control & Management | Document Coding & Numbering | EDMS / PMIS Administration (Thinkproject, S-PMIS, Aconex) | Drawing & Revision Control | MOM & MSRA Coordination | Transmittal & Correspondence Management | Material Approval Request (MAR) & Field Change Request (FCR) Tracking | Contract & Regulatory Compliance | Project Close-out & Handover | Subcontractor Coordination | AI-Assisted Document Workflows | Stakeholder Communication | Reporting & Data Analysis

PROFESSIONAL EXPERIENCE

Project Document Controller | Nov 2025 – Present

CEEC (China Energy Engineering Corporation) | Starah Independent Power Plant – 2GW Onshore Wind Project | Owner: ACWA Power | Riyadh, Saudi Arabia

- Manage document control for a 2,000 MW onshore wind project spanning a 273+ km² site with 206 Goldwind turbines (10.5 MW each), using Thinkproject as the project EDMS.
- Assign and validate document numbers in accordance with project-specific coding structure, discipline/system classification, document type and sequential numbering requirements.
- Control engineering drawings and revisions by monitoring drawing status, revision history, approvals and distribution of the latest approved versions to relevant project teams.
- Prepare and circulate Minutes of Meeting (MOM) for weekly, kick-off and other project meetings, maintaining traceable records of actions, decisions and responsibilities.
- Review Method Statements (MOS) and Risk Assessments (RA) and coordinate approval routing between Engineering, EPC HSSE and the Owner.
- Distribute approved documents to subcontractors and coordinate resubmissions and outstanding actions through closure.
- Manage Field Change Requests (FCRs), Site Instructions and Engineering Contact Sheets, maintaining controlled construction correspondence within the project EDMS.
- Maintain Owner-facing tracking for Material Approval Requests (MARs) and Concrete Pouring Plans, from initial submission through approval or resubmission.
- Monitor overdue submissions, pending comments and outstanding actions to support timely document review and approval cycles.
- Coordinate the registration, filing, distribution and archival of superseded documents, maintaining accurate document status and revision records throughout construction.
- Coordinate with subcontractors and suppliers on construction-phase submittals and inspection records, supporting future as-built documentation and project handover.
- Train and support EPC engineers and new Construction Department personnel on document control procedures, EDMS workflows and project documentation requirements.

Project Document Controller | **Nov 2022 – Oct 2025**

Samsung C&T Corporation | Meghnaghat 718MW Combined Cycle Power Plant | Owner: JERA Meghnaghat Power Limited | Technology: GE Vernova | Bangladesh

- Managed end-to-end document control for a 718 MW Combined Cycle Power Plant EPC project from engineering through construction, commissioning and handover, maintaining accurate and traceable project records throughout the lifecycle, which reached Commercial Operation Date (COD) in 2025.
- Registered, classified, reviewed and distributed engineering, construction, vendor and project documentation, ensuring correct document status, revision and accessibility.
- Administered project documentation through Samsung Knox Portal (S-PMIS), managing submissions, workflows, review status, revisions and controlled records.
- Prepared and issued transmittals and document submissions to EPC teams, vendors, subcontractors and stakeholders, tracking responses, comments, approvals and resubmissions.
- Maintained document registers, correspondence logs, engineering records and submission trackers, preparing daily, weekly and monthly reports for project management.
- Coordinated with Technical Field Assistants (TFAs), EPC teams and vendors to collect site documentation, resolve outstanding submissions and support project reporting.
- Supported project close-out and handover by compiling, checking and tracking as-built drawings, final technical documents, and handover records, ensuring completeness of documentation packages.
- Provided document control training and guidance to project personnel on S-PMIS workflows, submission procedures and documentation requirements.

Apprentice Lawyer | **Jan 2022 – Oct 2022**

District and Sessions Judge Court, Dhaka | Bangladesh

- Drafted and reviewed legal documents, supporting case strategy through legal research, analysis and risk assessment.
- Conducted legal research on applicable laws and regulatory requirements while maintaining organized case files and documentation.

EDUCATION

Master of Laws (LL.M) | Dec 2021 – Dec 2022

Bangladesh University of Business and Technology (BUBT) | CGPA: 3.79 / 4.00

Bachelor of Laws (LL.B) | Oct 2017 – Nov 2021

Bangladesh University of Business and Technology (BUBT) | CGPA: 3.70 / 4.00

PROFESSIONAL TRAINING

- Aconex — Document Control & EDMS Workflow (Professional Training Completed; Non-Certification Course)

CERTIFICATIONS & COURSES

- AI Foundations — OpenAI Academy | Course Completion Certificate | August 2026
- Applied AI Foundations — OpenAI Academy | Course Completion Certificate | August 2026
- Agents and Workflows — OpenAI Academy | Course Completion Certificate | August 2026

SOFTWARE & SYSTEMS

Thinkproject | Samsung Knox Portal (S-PMIS) | Aconex (Trained) | AI Productivity Tools | MS Office (Word, Excel, PowerPoint)

LANGUAGES

Bengali (Native) | English (Fluent) | Hindi (Conversational)
